Subject: **2010 Annual Export Report (EPA Notices Nos. 551/09 and 001381/9E/10)  
Shell Oil Products US, Martinez Refinery - EPA ID# CAD009164021**

Dear International Compliance Assurance Division:

Attached please find the Annual Export Report for the Shell Oil Products US, Martinez Refinery as required by 40 CFR 262.56 and the California Code of Regulations, Title 22, § 66262.56. This report covers the shipments of hazardous waste to Envirogreen Technologies Ltd in British Columbia, Canada under US EPA Acknowledgement of Consent Numbers 551/09 and 001381/9E/10 for the period from January 1, 2010 through December 31, 2010. A signed certification for the report is also attached.

In compliance with the requirements of 40 CFR 262.56 (a)(5), Shell Martinez Refinery (SMR) continues our efforts to reduce the quantity and toxicity of the hazardous sludges by minimizing the solids, hydrocarbon and hot water discharges to the refinery wastewater collection system. SMR continues to process some of the oil-bearing material (sludges) from the wastewater treatment system into the Delayed Coker Unit (DCU). In addition, SMR is investigating potential means of increasing the amount of oil-bearing material the facility can process at the DCU. A total of 437 tons of F037 waste stream was exported by SMR in 2010 compared to 427 tons in 2009.

If you should have any questions regarding this report, please contact Ms. Merliza Z. Alcala at (925) 313-5516.

Sincerely yours,

Lynley C. Harris  
Manager, Environmental Affairs
